

# Estate Planning Considerations: A Virtual Fireside Chat

At Nexus, your peace of mind is our most valuable asset.

Estate planning is much more than having a will or documenting finances. At Nexus, we are often asked to help clients with their estate plan – from the best tools for implementation to legal documents. But there are a lot of other complexities to be considered throughout the estate planning process.

Contact us if you would like to learn more, or if you want to get in touch about your estate planning needs.
